

ADVISORY SERVICES

Turn your vision and ideas into reality.

BRMi advisors provide strategies and operational tactics to enable delivery improvements, successful transformations, greater effectiveness, and the agility to respond to new market and policy drivers. Expertise and practical experience, such as in decision analytics, accelerates tangible results. Our advisory services include the following:

Strategy

- Multi-year technical direction
- Business-to-technology plans
- Real goals, key performance indicators
- Concepts of operations
- Stakeholder outreach & engagement
- Industry benchmarks

Change Management & Training

- Stakeholder analyses
- Communications plans
- Surveys and impact analyzes
- Training and measurement

Roadmap

- Action plans
- Initiative definition and design
- Transition
- Rough-order-of-magnitude estimates
- Stakeholder outreach and engagement

Governance

- Establishment and adherence
- Facilitation, tools and frameworks
- Centers of excellence
- Gate reviews and approvals
- Backlog prioritization
- Process improvements

Enterprise Architecture

- Alternatives analyses
- Technology and vendor selection
- Modeling and design
- Proof of concepts and pilots
- Technology rationalization
- Design patterns

Portfolio, Program, and Project Management

- Schedules and outcomes
- Frameworks
- People, process, capital, and technology.

Management Reform

- Navigation
- Implementation
- Industry, government-wide, and business-specific reforms

Our understanding of current management reforms and policies enables us to quickly assess your current environment, establish benchmarks, and enhance your planning outcomes. We work with you to operationalize your strategy by defining and prioritizing initiatives within a roadmap to achieve your vision.

We're Partners in Your Success, Whatever Your Business.

BRMi serves both private and public sectors, from the national security establishment to monetary and financial institutions, statistical and regulatory bodies, and many others. A few of our successes ...

FITARA Implementation U.S. Department of Homeland Security

We led the DHS Enterprise Business Management Office in implementing Federal Information Technology Acquisition Reform Act (FITARA) compliance strategies and executing 17 baseline requirements across all component agencies. We conducted departmental self-assessments, developed action items to address gaps, and prepared policies and procedures to help DHS become fully compliant with FITARA legislation.

Program Management Transportation Security Administration

We emplaced a collaborative, cross-functional approach that has kept integrated project teams communicating, frequently and efficiently, and allowed fluid course-correction responses. Backlog items are groomed and meticulously organized so the development team can accomplish prioritized items, quickly modifying scope. We helped realize concurrent and follow-on goals with external agencies.

Enterprise Architecture Pension Benefit Guaranty Corporation

We unified and completed an actionable enterprise architecture to provide value-add segment, solution, and business-needs analysis services to PBGC's internal and external customers. Our contributions improved PBGC's ability to accomplish its strategic goals. Our work was used to demonstrate substantial progress in PBGC's update to the Government Accountability Office on the actions taken in response to their recommendations.
